

XOD CLASS CENTENARY OFFER

SAFASAIL Caps are safer than current sailing caps.

Bump caps worn on building sites to protect against minor injuries to the top of the head meet the requirements of EU Standard Specification EN812.

For sailors, the main danger is being hit by the boom.

SAFASAIL Caps besides meeting the Specification EN812, provide protection against side impact and also include chin straps to avoid the caps being blown off in a gust.

The ultimate in head protection is a helmet, but most adult sailors are reluctant to wear helmets. **SAFASAIL** Caps offer the best compromise as they incorporate a hard injection moulded shell and foam padding at the sides as well as the top.

SAFASAIL Caps are made with a large peak to protect against bright sunshine ahead. An alternative **SAFASAIL** is available with a narrow peak to enable the helm to look up to see the wind indicator at the top of the mast.

SAFASAIL Caps are adjustable to fit most adult head sizes. For very small heads, additional strips of self adhesive foam are available free of charge.

There are 3 models of **SAFASAIL** Caps with XOD Centenary logo embroidered.

A

Two tone blue and standard peak

B

Navy blue with red edging and standard peak

C

Navy blue with narrow red peak.

ORDER FORM

Please supply: x SAFASAIL Cap **A** with embroidery

x SAFASAIL Cap **B** with embroidery

x SAFASAIL Cap **C** with embroidery

Total number of caps @ £18.00

Total cost £
